

SIMATS ENGINEERING

Saveetha Institute of Medical and Technical Sciences
Chennai- 602105

Student Name:Arvind S

Reg.No.:192525192

Course Code: CSA0305

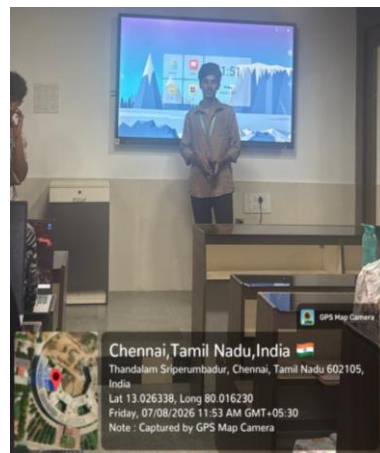

Slot: A

Course Name: Data Structures

Course Faculty: Dr.Uma Priyadarshini

Project Title: AI-Powered Smart E-Commerce Product Search and Recommendation Engine Using Hashing Algorithm

Module Photographs: (3 photographs –Module Photo, Individual student contribution module work in the project and presentation image)

Project Description: (here you write what you did in this project (contribution) including Model Description)

Project Title:

This module provides an interactive interface to visualize evacuation routes, safe zones, and real-time crowd movement using dynamic graph algorithms. It integrates GIS maps, heatmaps, and flow diagrams to help decision-makers monitor evacuation progress. The dashboard also generates automated reports and analytics on evacuation efficiency, bottlenecks, and resource allocation, enabling authorities to make data-driven adjustments during disaster scenarios.
